## SUBSTANTIAL IMPROVEMENT/DAMAGE PACKET

Permit Number: \_\_\_\_\_

### ITEMS REQUIRED TO DETERMINE SUBSTANTIAL IMPROVEMENT/DAMAGE

Applicant must submit the following (*Make sure you have an extra copy for your files*):

**This form is required to be completed for ALL properties participating in NFIP**

1. The completed building permit and substantial improvement/damage packet including the required 2 sets of (minimum) plans and documents;
2. An estimated Cost of Reconstruction/Improvement form, completed by a Licensed General Contractor, Architect, Engineer, or owner builder and signed by the Owner/Contractor or Contractor with a copy of his license certificate attached;
3. Current photos of the structure, or photos before and after the storm (if applicable);
4. Highlighted floor plan drawing showing area of structure to be repaired or altered;
5. Substantial Improvement/Construction Affidavit completed, signed, and dated;
6. An independent appraisal of the depreciated value of the structure will be used as the market value. It shall be noted on the appraisal that it is for FEMA purposes;
7. NOTE: If the use of assessed value is questioned, an appeal is warranted, but the burden of proof can be placed on the permit applicant who can submit an independent appraisal by a qualified appraiser establishing actual cash value (replacement cost depreciated for age and quality of construction of building). The building value must be fairly depreciated to reflect the age of the building and the deterioration of building components. These appraisals are subject to review by outside appraisal firms of the Town's selection. Cost for such independent review will be borne by the applicant.

The value placed on all donated or discounted materials should be equal to the actual or estimated cost of such materials and must be included in the total cost. Where materials or servicing equipment are donated or discounted below normal market values, the value should be adjusted to an amount that would be equivalent to that estimated through normal market transactions. *Section 4.4.4\**

The situation described above that involves donated or discounted materials may also involve volunteer labor. Also, property owners may undertake fairly significant improvement and repair projects on their own. In both cases, the normal "market" value or "going rate" for labor must be included in the estimates of the cost of improvement and the costs to repair. *Section 4.4.5\**

I understand that I am subject to enforcement, penalties and / or fines for violation if inspection of the property reveals that I have made additions, renovations or remodeling to the property which were not included in the permit documents.

Violating the FEMA improvement threshold may result in removal of improvement work, revocation of the Certificate of Occupancy for the building, and/or an order to remove the structure.
